## ABOUT THE CLUBHOUSE PROGRAM

Since its beginnings 25 years ago, **The Clubhouse: Where Technology Meets Imagination** has been a resource for thousands of young people to explore their own interests, develop skills, and build confidence in themselves through the use of technology. At The Clubhouse, underserved youth unleash their creative talents, engage in peer-to-peer learning, and develop a unique voice of their own to express themselves through "STEAM" – STEM and the arts. Today, The Clubhouse Network is a global community comprised of 100 Clubhouses in 18 countries, providing 25,000 youth per year with access to resources, skills, and experiences to help them succeed in their careers, contribute to their communities, and lead outstanding lives.

The Clubhouse Network: Where Technology Meets Imagination is a collaboration with the MIT Media Lab.
