Clubhouses and Teen Tech Centers providing a creative and safe out-of-school learning environment.

20 countries with Clubhouses integrated into local communities across the world.

18,404 youth gained access to resources, skills, and experiences to help them succeed in their careers and lead outstanding lives.

1,000 volunteer mentors supporting youth, building community, and learning alongside members.

103 youth completed our Career Pathways to Success program, gaining knowledge and skills and completing a paid summer internship.
Dear Friends of The Clubhouse,

2019 was a year of accomplishments! We were honored to receive the Presidential Award for Excellence in Science, Mathematics, and Engineering Mentoring, the nation's highest honor in STEM mentoring. This award pays tribute to the thousands of youth and mentors who have come together over the past 27 years to explore their own ideas, develop skills, and build confidence in themselves through technology. But the year wasn’t just about winning awards. We opened 14 new Best Buy Teen Tech Centers and Clubhouses, including our first in Japan, and expanded our Career Pathways to Success initiative across the United States. And we invested deeply in the professional development of Clubhouse staff around the world, through a global conference and regional workshops.

It is with tremendous thanks to everyone in the Clubhouse community—donors, community partners, Board members, volunteers, staff, alumni, and youth—that we were able to strengthen our impact around the world.

In a world battling a global pandemic, a growing wealth gap, and systemic racism, your continued support is more important than ever. Visit theclubhousenetwork.org or connect with us on social media to help us meet our mission.

With Gratitude,

Cail Breslow
Executive Director

Amon Millner,
Board Chair

DONOR SPOTLIGHT

STEVE OSEMWENKHAE
The Flagship Clubhouse
Roxbury, MA, USA

“Giving back is the biggest thing for me, allowing me to share the knowledge I’ve gained not just from The Clubhouse itself, but from the experiences of my life. The Clubhouse has helped me in my journey with photography and video, and with the ability to network, I keep coming back because of the people who are there.”

Steve works full-time as a photography and video specialist at the Federal Reserve Bank of Boston. He was a founding member of the very first Clubhouse and later returned as a mentor. Steve continues to strengthen the Clubhouse community as an active alum, as a member of The Clubhouse Network’s Board of Directors, and as an annual donor.

PARENT SPOTLIGHT

JACQUELINE NÚÑEZ RAMÍREZ
Clubhouse Sales Cartago
Cartago, Costa Rica

“The Clubhouse has been a valuable opportunity for my children to learn new technology as well as important values and soft skills. The influence of the Clubhouse has been immensely positive. Learning has been invaluable and my children have continued to progress with every challenge they have encountered. The Clubhouse is a great opportunity for them to grow and learn about technology in a unique way.”

Jacqueline Núñez Ramírez is the mother of 12-year old Megan, who especially enjoys working in Blender, a free and open-source 3D computer graphics software tool. The Clubhouse Sales Cartago opened in 2017 and is one of three in Costa Rica.

ALUMNI SPOTLIGHT

IZZELDEEN MANASRA
e-Village Innovation Lab Clubhouse
Mleih, Madaba, Jordan

“The Clubhouse has helped me to stay on the right track because of the incredible opportunities I have been given, such as attending the Teen Summit 2010 in Boston and having the honor to meet Clubhouse co-founder Mitchel Resnick at the MIT Media Lab, who shared his knowledge with me. By pushing me further, he assured me I could continue on this path. I won a C2C STEAM scholarship in 2011, which gave me the opportunity to master my leadership skills.”

Izzeldeen Manasra is an alum of e-Village Innovation Lab Clubhouse and an engineer. Using his expertise in robotics and engineering, he has gone on to design and build special robots for snow blowing and firefighting. Izzeldeen has also returned to the Clubhouse as a mentor, focusing on robotics.

Our Impact

THE CLUBHOUSE MISSION

The Clubhouse mission is to provide a creative and safe out-of-school learning environment where young people from underserved communities work with adult mentors to explore their own ideas, develop new skills, and build confidence in themselves through the use of technology. In support of that mission, The Clubhouse Network supports community-based Clubhouses around the world by providing start-up support, professional development, new technology innovations, evaluation and assessment, partnership opportunities, and access to an online community for youth, mentors, and staff.
